STATEMENT BY FIRM Sitelines PA is a consulting firm specializing in Site - Civil Engineering, Land Use Planning and Surveying serving both private and public sector clients. Founding in 1989, we have played a significant role in the economic growth in the Mid-Coast Maine Area, completing numerous commercial and municipal projects in Brunswick, Topsham and Bath. Our recent growth to statewide projects is attributable to our thoroughness, professionalism & faithful attention to our clients needs. Our primary services focus on successfully integrating land development into urban or natural environments. Our staff is experiencee in the laws and policies of state and local agencies regarding site development and environmental protection. We are committed to assisting clients in evaluating and implementing successful land management and development strategies.
